

THE GIVING TREE

The Giving Tree will provide a Haitian child the opportunity to go to school every year. It is also called the tree of life, because the fruit that is not used for school tuition, can be a source of food for the family. The most popular Giving Tree is the mango tree which provides all the food nutrients a child needs to be healthy. Parents also request lemon trees.

The trees will be distributed in June. A photo of the child receiving the tree will be sent to donors. The cost per tree is \$25.

If you would like to give a tree to a child please return this card.
